## EDUCATION

2018-2021

R.G. SHAH SCIENCE COLLEGE

- Bachelor of Science

2022-2024

L.J. UNIVERSITY

- Master of Computer Application

## SKILLS

- C,Html,Css JavaScript, Python
- Node.js, React, Express.js, Bootstrap, Redux-Toolkit
- VS Code, Git, GitHub
- SQL, MongoDB

## CERTIFICATE

- JavaScript Basics (Coursera)
- Python Basics (Coursera)

## PROFILE SUMMARY

Software Developer with extensive experience in developing scalable web applications and REST APIs. Skilled in building dynamic user interfaces, managing backend APIs, and creating efficient database schemas for large-scale, real-world projects

## WORK EXPERIENCE

N&T SOFTWARE

JUNE-2024--DEC-24

Software Developer

- Built robust REST APIs for e-commerce platforms, integrating features like user authentication, cart, and order management.
- Developed scalable admin dashboards with dynamic CRUD operations using React.js, Redux Toolkit and Node.js MongoDB.
- Worked on live projects, to changes in api and integrate with frontend side using Redux Toolkit.
- Conducted regular code reviews and optimized queries in MongoDB to enhance application performance.

### Project

#### Desire-Mart:

- Designed and developed an e-commerce web application with features like product filtering, cart management, and a payment gateway, providing valuable insights for product development and positioning.
- Integrated live APIs for dynamic product and category management. Implemented an admin panel for order tracking, inventory control, and analytics. Built secure user authentication with JWT and role-based access control for admins.
- Built a robust backend using Node.js and Express, enabling RESTful APIs for handling users, orders, and product management.

#### Real-Time Chat Application:

- Built a real-time chat application using React and Socket.IO for bidirectional communication. Implemented user authentication and message persistence using MongoDB. Designed an intuitive UI with React components and managed state with Redux Toolkit
